

I am sending this in regard to possible LPFM rule changes. My family and I have been listeners to K-LOVE for many years, and we are financial contributors to the network. K-LOVE reaches hundreds of thousands of listeners, because thousands of people like myself, financially support it. If K-LOVE, and their message, were not important, it would not be financially supported by so many, and consequently, not reach as many people or have as many translator stations as it has. The size of K-LOVE, and its audience, should be testimony enough of how important it is to keep them on the air. In our local area, they are the only station that airs Christian content. It was people in our local area that worked to get K-Love on air here. It is the people in our community that financially support our local station. It is the work of the people in our community that will be destroyed if you make regulations that will take K-LOVE off the air here. DO NOT make regulations or rule changes that would end the broadcast of the only Christian broadcast we receive and one of very few that has family values, and music that I do not have to censor for my children!
